KAYDEN

Hairpiece/Hat: White Hat

Gloves: None

Tights/Socks: Tall White Dress Socks (Provided)

Shoes: Black Ballet Shoes

Other Accessories: Suspenders

Sewing Instructions: Hat - Attach elastic with metal ends to each side of the hat (poke a small hole in hat where the metal ends will go). Position it so that the metal ends are slightly in front of the ears and the elastic can be pulled back and tucked behind the ears for a secure fit under the chin. If the elastic is too long, move the metal pieces deeper inside the hat. Use foundation make-up to color chin strap to match skin tone.

Additional Notes: Hang costume. A cool iron may be used to remove wrinkles.

See more instructions on next page...

Tap III-Vittorio Costume Notes Continued...

Sewing Instructions: 1) If needed, hem the high-waisted pants so they fall to the middle of the heel of the shoe. 2) The metal ends of each suspender will go over the shoulder in a parallel orientation (not criss-crossed). The suspenders will be clamped to the pants with the metal clasps in the front and the back. If the suspenders are too long, please fold under extra material on the back of the suspender next to the clasp. Tack material together to secure. Once adjusted, tack each suspender to the shirt at the top of each shoulder (be sure your dancer can raise shoulders and move freely). 3) The tie will be folded using a "Simple Knot" (See Picture). It will be "loosely" worn around the neck (see picture on the top of page). **The length of the tie will be determined.** Velcro will need to be sewn in between the front and back ends of the tie so that the smaller tie underneath does not show. 4) If the hat is too big, weather stripping can be glued to the inside of the hat to improve fit (Can purchase from hardware store or amazon).

Modifications to these directions as well as additional information may be included once all pieces of the costume are delivered.
