Let the ribbons hang long. Be sure to not pull the ribbon too tight so that the costume can be taken on and off without undoing the knot. Please stitch the knot under the flower applique to secure it. 3) The yellow ribbon should be centered on top of the green ribbon around the waist. In order to keep the ribbons layered properly, tack them over the seam between the skirt and bodice on both sides as well as 2-3 points on both the front and back of the costume. 4) The long green and yellow ribbons on the dancer's right side should fall 4 inches from the hem. The green and yellow ribbons on the dancer's left side should fall 1 inch from the hem. Cut each ribbon on an angle.

Additional Notes: Hair in bun. Hang costume. Tack using matching thread. Steam costume as needed to remove wrinkles and fluff material. Do not iron.
